Dear Mr. Raymond

Re: Report of the Highway Review Committee.

Thank you for your email of February 13th 2013 and for the soft-copy Report prepared by the Highway Review Committee.

NIDCO is in the process of examining the document at this time. We note that it is the intention of the Joint Consultative Council (J.C.C.) to publish the document on Friday 15th February 2013 on the J.C.C.'s website. However, we have observed that several statements made in the document are not factually correct. We also have observed that some conclusions made do not appear to follow from the information supplied or the analysis presented. Finally, some statements made may be easily misinterpreted because of the manner in which they are presented.

NIDCO is also concerned that the report appears to have been compiled by the Committee Chairman and that perhaps time did not allow for committee members to examine the report before allowing their names to be associated with the full document.

In NIDCO's view 'due process' demands that these matters be addressed before finalization and publication of the report. We are confident that the J.C.C. shares our concern for this matter to be handled with the greatest degree of professionalism and with due regard for the far reaching implications which may arise from a document which is either factually in error, or not carrying the full authority of its contributors, being presented in public or before the High Court of Justice.

Board of Directors: Mr. Krishendath Ramoutar (Chairman)
Professor Winston Suite (Deputy Chairman), Mrs. Mandavi Tiwary, Mr. Hollis J. Eversley,
Mr. Rabindra H. Outar, Ms. Reneelise Khan

NIDCO accordingly requests that the J.C.C. delay the finalization and publication of the report for a suitable period to permit the above mentioned matters to be addressed.

With kind regards,

Dr. Carson Charles
President
